

Drug and Health Screening

"Your team is helpful and caring. We appreciate the close personal attention your team provides to our company."

Laura Kasper, CEO

Your easy solution for comprehensive drug screening.

VerifyProtect.com provides an insulator against claims of discrimination or potential tampering of results.

Statistics:

- Up to 40% of industrial fatalities can be linked to alcohol abuse and alcoholism
- 38%-50% of all workers' compensation claims are related to substance abuse
- Drug using employees are 3.6 times more likely to be involved in workplace accidents
- Health care costs for employees with alcohol abuse problems cost nearly twice as much as those of other employees
- Of the 5.7 million users of illicit drugs other than marijuana, 3.8 million were using psychotherapeutics non-medically in 2000.

Psychotherapeutics include: pain relievers (2.8 million users), tranquilizers (1 million users), stimulants (0.8 million users), and sedatives (0.2 million users)
